

# Find The True Potential of your Home with a **Vibrant Energy Saving Audit**

Truly Making Your Energy Matter

## More Than Just an EPC Certificate

Your home's energy performance is about more than just a rating. With a Vibrant Energy Saving Audit (VESA), you'll receive the most detailed home energy report available in the UK.

We assess properties for sustainable improvements, install the recommended solutions, access government funding to reduce your costs and also reduce your energy bills with an in-depth, encompassing report.

**We're a trusted property partner to the UK's leading brands**

# What's Included in Your VESA Report?

## 1 Comprehensive Energy Insights

Specific recommendations based on your report to help improve efficiency and lower bills.

## 2 Government Grants & Incentives

We'll help you access the latest funding schemes you may be eligible for, making home improvements more affordable.

## 3 Exclusive Home Improvement Discounts

Special offers from Vibrant's trusted brand partners including Nissan, B&Q and Purple Bricks to support your energy-saving upgrades.

## 4 £500 Off the Vibrant Gold Package

When you install the recommended energy improvements from your VESA report, you'll receive an exclusive £500 discount on our premium Gold Package – which is designed specifically for your property to become energy-sufficient, pay little to no energy bills and completely reduce your reliance on the grid.

## Why Choose a VESA?

- Our report provides deeper insights than any standard EPC in the UK, with recommendations and insights specific to your home.
- Reduce energy waste while taking advantage of exclusive savings and funding options.
- We offer independent, unbiased advice and guide you through every step of your energy efficiency journey!
- As the UK's largest energy assessment provider, we cover a wide range of services, from simple upgrades to advanced solutions like solar and heat pumps.

# Our Sustainable Products

1

## **Solar Installation & Battery**

One of the most effective ways to improve the energy efficiency rating of your home, through harnessing the sun's energy during the day and storing it for use at night.

2

## **Air Source Heat Pump**

Reduces energy consumption and environmental impact by utilising the natural warmth of the air to heat your home during winter and cool it during summer.

3

## **Insulation Installation**

Cavity wall and loft insulation help maintain a consistent temperature indoors, reducing energy bills and carbon emissions, all while reducing your energy usage.

4

## **High Retention Storage Heaters**

Designed to retain heat for longer periods, these heaters provide consistent warmth while minimising energy consumption, saving you money in the long run.

### **And much more!**

As pioneers of sustainable energy solutions, these are only a snapshot of what we have available. Our wide range of solutions cover everything you need to become less reliant on the grid, including voltage optimisation, photovoltaic systems, hot water cylinder jackets, heating control upgrades and much, much more.

### **Achieve an EPC C Rating**

An EPC rating of C or above is the sign of an energy-efficient home, which results in reduced bills and a property with a reduced carbon footprint for a greener UK. A Vibrant Energy Saving Audit is the first place to start, we even send your report back to you within 24 hours.

### **Reduce Your Energy Bills**

Stop your reliance on the grid with our green solutions that save both money and energy. Whatever type of property you live in, we have the sustainable products you need and will never want to live without again.

# Expert Guidance for a Greener, More Efficient Home

**When you talk to us, you'll get expert, unbiased advice on the best solution for your property. We're not in it for the short-term and we'll be with you throughout your journey.**

Choose us and you'll gain access to our partnerships with the UK's leading brands, specialist installations and guidance on how to reduce your bills, carbon footprint and reliance on the grid.

We have everything you need to help your property become more energy-efficient. Whether it's achieved through our pioneering sustainable solutions or energy-saving installations, our expertise and knowledge will reduce your carbon footprint, reduce your energy bills and increase the value of your property.

# Book Your VESA Today!

Find out how a Vibrant Energy Savings Audit can help save on energy usage, save substantial money on your bills savings and reduce your reliance on the grid and embrace an off-grid lifestyle.

Making Homes Smarter, Greener,  
and More Efficient for a Net Zero UK.
